## **ClearStar.net Helps National Screening Company Remain Focused on Delivering Customer Service**

**METSCheck, Inc. Adopts Starlight Screening Management Solution**

**CUMMING, GA – March 25, 2009** – ClearStar.net, a leading technology provider for the employment and tenant screening industry, announced today that it has been selected by METSCheck, Inc., a national background screening and drug testing company, to provide the infrastructure for their screening services.

“As the volume of our background screening has increased, it was getting harder for us to maintain the level of service that our customers had come to expect,” explains Jim Price, president of METSCheck, Inc. “ClearStar.net has introduced us to a more cost-effective and efficient way to deliver services to those clients.”

METSCheck, Inc. has adopted the Starlight Screening Management Solution™. Starlight SMS provides a robust and secure online environment that allows business owners to manage all facets of their screening business from automating order processing to monitoring supplier activity and ultimately invoicing their clients all from a single interface.

Prior to using Starlight SMS, METSCheck had been ordering services through a distributor which proved slow, expensive and laborious.

“Initially price is what drove us to market but once we got there and started talking to different providers, the people at ClearStar.net came through as different – they were responsive, open, friendly and willing to follow-up,” declares Jim Price, President of METSCheck, Inc.

“In an increasingly competitive market, it is going to be the quality of customer service delivered that will ultimately set successful businesses apart,” concludes R.J. Vale, CEO of ClearStar.net. “As an entirely-turnkey solution, Starlight SMS is especially well-suited for businesses like METSCheck who want to invest more time building relationships with their clients and less time focusing on the technology required to get them there.”
