

For Immediate Release

HR Integrations and ClearStar Create Strategic Partnership

New York, NY and Alpharetta, GA – March 21, 2011 – HR Integrations, the leading integrations network and exchange for the human resource (HR) market, and ClearStar, an innovative technology provider for the employment and tenant screening industry, today announced a strategic partnership. This partnership connects the growing network of applicant tracking systems (ATS) and human resource information systems (HRIS) on the HR Integrations HRNX platform with ClearStar's background screening technology clients through a single HR-XML integration.

"ClearStar's forward thinking technology combined with HR Integrations product leadership and integration network will provide ClearStar clients the ability to rapidly integrate with leading ATS and HRIS platforms," said Paul Mladineo, President of HR Integrations.

HR Integrations connects ATS and HRIS software platforms with HR service providers through the innovative HRNX Exchange, creating one HR services marketplace on the desktops of HR managers and recruiters. The HRNX Platform enables ClearStar technology clients to leverage the integration between HRNX Exchange and the ClearStar Aurora technology platform to connect to a virtually unlimited number of ATS and HRIS software platforms. These integrations also deliver seamless workflow efficiencies and process improvements for recruiters and HR managers who use these integrated ATS and HRIS systems.

ClearStar's Gateway Web services were utilized by HR Integrations in the HRNX Exchange integration. Individual ClearStar clients may also utilize these tools to build a customized experience for their customers and create unique ways to collect applicant data for the purposes of conducting background checks.

"Part of our commitment to ClearStar technology clients is to maximize their service delivery options," stated Vince Pascarella, President of ClearStar. "This partnership with HR Integrations not only provides our clients with seamless connections to the unprecedented list of ATS and HRIS providers in the HRNX Exchange, but it also enables a shorter time to market at a lower cost for our valued clients and their employer-customers for these types of high-value systems integrations."

About HR Integrations

HR Integrations is an HR software technology company with over 30 years of cumulative experience in advanced integration technologies in the HR industry. HR Integrations makes the arduous and time-consuming activity of system integrations obsolete by simplifying and eliminating the work it takes to integrate disparate systems, quickly. Our mission is to make HR services more accessible by aggregating and pre-integrating leading service providers on the HRNX Exchange. We bridge the gap between all HR systems (ATS, HRIS, HCM, Payroll, E-Learning, and ERP) and the HR services marketplace. Founded in 2009, HR Integrations is based in New York, NY.

About ClearStar

ClearStar is a trusted provider of technology, strategic services and decision making information for background screening firms. ClearStar empowers clients to control their value and their user's experience with its HR-XML Consortium certified Aurora technology platform and innovative tools like Web services, Web Application Programming Interface (Web API) and shared source code. A three-time Inc. 5000 honoree, ClearStar has provided innovative technology solutions to businesses in the human capital management industry from its corporate offices near Atlanta, Georgia since 1995.
