

ASSURED COMPLIANCE®

AVAILABLE ONLY FROM CLEARSTAR

ClearStar's commitment to compliance minimizes risk for our clients and helps to overcome their greatest compliance challenges.

ClearStar has been an innovation leader in the background screening industry over our 25 years in business. One unique innovation is our Assured Compliance® Program which automates and manages local, state, and federal (FCRA) notice, disclosure, consent, and adverse action requirements for United States candidates. This program is updated with emerging Ban the Box legislation, regulatory changes, and state-permissible purpose requirements for credit reports.

For companies operating in multiple geographies, one size does not fit all. The FCRA may not be the only law impacting employer compliance. ClearStar's Assured Compliance® Program presents dynamic notices and disclosures as prescribed by local, state, and federal (FCRA) laws to candidates as required based on their geographies. ClearStar is the only screening firm providing a real-time compliance solution.

ASSURED COMPLIANCE®

AVAILABLE ONLY FROM CLEARSTAR

When we partner closely with our clients on compliance requirements, we are both safer. Below are the highlights of our Assured Compliance® program.

Real-Time Compliance

One size does not fit all. Disclosures, notices, and consents are presented to candidates in a fully automated solution as required by local, state, and federal (FCRA) laws.

Dynamic and Compliant Disclosures

Candidates are presented only with disclosures that are relevant for them based on where they live and will be working to minimize confusion.

Adverse Action Management

ClearStar's robust adverse action management module virtually eliminates compliance challenges for employers and makes navigating complicated requirements a breeze, even in jurisdictions where additional steps are required.

Auto Updated as Laws Change

Compliance with local, state, and federal laws is a constantly changing landscape that can be challenging. ClearStar automatically updates our technology in response to new regulatory and legislative changes.

Strong and Clear Audit Trail

A transparent process is important. Candidates can access a copy of their specific notices, disclosures, and the consent they signed. This also creates a reliable audit trail for employers.

ClearStar is Multilingual

Our technology has powerful language capabilities and supports numerous languages. This helps to ensure a transparent and easily understood process for every candidate.
