

# HELP PROTECT YOUR BUSINESS

ClearStar and Current Consulting Group have teamed up to offer employers a complete package of compliance services. Four basic compliance packages are available, designed to help companies of all sizes have immediate access to the essential services that make complete compliance possible. Depending on the specific compliance package, services include:

### **50 State Database Online Subscription**

Includes access to individual State law charts, each with more than 150 line-items of information that cover, among other subjects, how testing may be conducted, when testing is permitted, who can be subject to testing, and how marijuana laws impact drug testing.

### **Real-Time and Monthly Legislative Update Memos**

Receive email updates in real-time whenever important legislation happens, as well as a monthly summary (LegUp) of all the state changes from the previous month. This would include drug testing, workers and unemployment compensation and marijuana legislation.

### **A 10-Point Drug-Free Workplace Policy Review**

This review service looks at the 10 most important aspects of a comprehensive, compliant drug testing policy and checks for applicable Federal/State/City regulations.

### **Employee and Supervisor Training Courses**

Up-to-date, state-of-the-art online training courses include signs & symptoms, DER, and basic drug education courses for supervisors and employees. Training courses are available for non-DOT workplaces and all DOT modes.

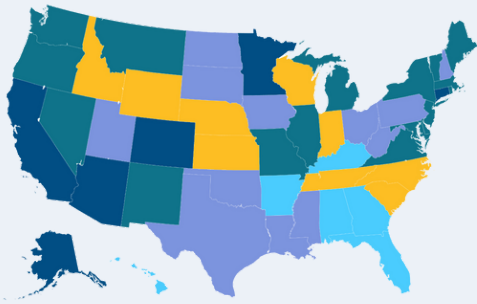

### **Email Q&A Consulting**

Compliance packages include 12, 18, or unlimited email questions per year in which clients may present virtually any compliance-related question to Current Consulting's staff of policy experts, attorneys, and training specialists. The Platinum Package includes unlimited email questions per year. Responses are guaranteed within one business day and are presented in writing via email.

### **LIVE Webinar**

Our Platinum Package includes a free webinar with full hosting and presentation services. Clients may choose the presentation topic from a list of prepared slide decks or request a customized presentation.
